Date 30/06/2025

Subject: Complying to REACH standards (Regulation CE n. 1907/2006 (REACH))

Dear Customer,

The regulation REACH (CE n. 1907/2006) concerning the Registration, Evaluation, Authorisation and Restriction of Chemical substances came into force on the 16th of June 2007.

With respect to the so-called candidate lists with particularly alarming substances (SVHC) including all candidate lists published up until and including 25/06/2025.

Furthermore, they do not contain substances included in the annexes XIV and XVII

We herewith confirm as follows:

Due to the composition of our products and the knowledge of the raw materials used for the manufacture reflected by safety sheet data received from our suppliers we would like to inform you that none of our products contain percentages exceeding 0,1% w/w of any of the listed substances in the candidate lists.

Though we would like to draw to your attention that we as a supplier of articles and nonproducer/ importer of chemicals do not undertake specific related analysis to determine the absence of the latter we are working effectively with all our suppliers and we have requested safety sheets for the correct use of products and substances that we adopt. All our suppliers in turn have responded positively that they are adhering to the above stated regulation 1907/2006 where pre-registration is necessary.

Based on Article 33 of the Regulation Reach, in the case our articles would contain a percentage greater than 0,1% w/w of substances from the SVHC list it would be our duty to supply documentation and declaration of this for the safe use of the articles supplied.

Andrea Testa Legal Representative.
